## QUALITY GAS BOILERS

Performance and Dependability for Hydronic Heating

Residential, Commercial and Industrial Applications

Nine Models from 135,000 to 495,000 Btu/h

# S A T U R N   S E R I E S   B O I L E R S

135,000 Btu/h

225,000 Btu/h

495,000 Btu/h

## **SATURN SERIES** boilers offer more than just comfort...

Allied Technologies unique energy-efficient DOUBLE PASS design provides the ultimate in quality construction, performance and reliability. Low operating cost, and ease of installation makes our boilers well-suited for both new construction and renovation.

## **APPLICATIONS**

Large and Multi-family Residential and Commercial applications:

- Modular Boiler Installations
- In-floor Heating
- Fan coils
- Baseboard Radiation
- Heat exchangers
- Snow melt
- Indirect hot water heaters
- Radiant panels

## **"PS" PACKAGE CONVENIENCE**

Optional on models up to SG270, "PS" or Packaged boilers save installers time and labour by including system parts and a pump pre-wired and mounted. See back page for parts list.

## **ENVIRONMENTAL SUSTAINABILITY**

Allied Technologies uses an environmentally friendly construction that is designed for longevity and maximum efficiency. Most components can be recycled after their long, trouble-free life.

## **WARRANTY PROTECTION**

Saturn Series are manufactured to the highest standards, employing only top quality materials and workmanship. Our proven design features a TEN-YEAR heat exchanger warranty and one year on all parts and controls. Please refer to printed warranty for details. Installation and service manual provided with every boiler.

- Rugged Industrial Design Steel Fin Tube Heat Exchanger Built to ASME Standards
- 85% AFUE Efficiency Rating
- Compact, Lightweight, and Durable
- Ideal for Modular Installations Providing Uninterrupted Heating
- Approved for Combustible Floor and Closet / Alcove Installation
- Natural Gas or Propane

## **USER-FRIENDLY CONTROLS**

**Boiler Controller:** Control, monitoring and safety devices are factory wired using plug in connectors for quick installation and service.

**Zone Control System:** Models under 300,000 Btu/h use our exclusive Zone Controller which handles up to 4 zones with separate plug-ins for zone valves and LED lights to clearly show which zones are being heated. If required, additional boards can be added to increase zone capacity.

# SATURN SERIES BOILERS

## 1. Automatic Vent Damper

Standard on all AFUE verified SUPER HOT boilers. Reduces off-cycle flue heat loss and conserves energy. ▶

## 2. Draft Hood c/w Blocked Vent Safety Switch

Low profile and common for both natural gas and propane. Exhausts flue gases through chimney. ▶

## 3. Circulator

Can be supplied factory mounted and wired on a cast iron pump adapter. The pump adapter has a tapping designed to accept a dial type temperature gauge. ▶

## 4. High Grade Stainless Steel Burners

Scientifically designed for efficient and quiet operation. Burner drawer slides out allowing easy access to burner and pilot for inspection and service. ▼

## 5. Combination Gas Valve

Ensures safe lighting and 100% shut off in case of flame failure. ▲

SG135-PS

## 6. Steel Fin-Tube Heat Exchanger

To maximize the heat transfer surface, our unique double pass design uses 1/2" fin spirally and continuously welded on 2" O.D. SA178A, industrial steel boiler tube. ▼

## 7. Boiler Control

### Models SG135 – SG270

Advanced Resideo control with electronic spark ignition, thermal purge and limit rated water temperature control. Simple programming and LED display for quick installation and diagnostics.

### Models SG315 – SG495

Various control options are available including two-stage, Flow switch, BC-1 with outdoor reset and DDC for external control.

## 8. Attractively Finished

A durable steel casing and attractive baked enamel finish from our state of the art paint line protects boilers internal working.

## 9. Full Doors

Full length doors are supplied on all boilers up to SG270. Control panel doors are supplied on boilers SG315 and over.

## Efficiency Ratings for Saturn Series Boilers

Model	Input	Natural Gas		Propane	
		Output	AFUE	Output	AFUE
SG 135	135,000	115,000	85.0%	115,000	85.0%
SG 180	180,000	153,000	85.0%	153,000	85.0%

## D I M E N S I O N S A N D S P E C I F I C A T I O N S

Allow 24" (61cm) minimum in front for servicing  
 Minimum clearances to combustible material Top, 6" (15cm), Sides 2" (5cm), Rear 2" (5cm)  
 Approved for Combustible Floors & closet installation

### All Models Include:

- Stainless Steel Burners
- Spark Ignition
- Combination Gas Valve
- Temperature Limit Control
- Temperature/Pressure Gauge
- ASME Safety Relief Valve
- Drain Valve
- Draft Hood

### Models SG135 – SG270 also include:

- Integrated Boiler Control
- Zone Control Board/Transformer
- Blocked Vent Safety Switch
- Flame Roll-Out Safety Switch
- Automatic Vent Damper

### Packaged Models "PS" Include Standard Model Parts Plus:

- Circulating Pump
- Custom Cast Iron Pump Adapter
- Expansion Tank
- Air Purger
- Combination Fill/Regulator Valve
- Automatic Air Vent
- Add 45lbs (20kg) for shipping weight
